

STANISLAV LYU

Porthmouth, England PO2 8HZ | +44 7467 626332 | stas-lyu@outlook.com

Summary

I am a front-end developer with over 5 years of experience. I have deep knowledge of TypeScript, JavaScript, Angular, and React. As a team leader, I successfully manage projects and mentor junior developers. I have experience and skills in building websites on JAMstack (Next.js, Gatsby.js). I have successfully developed web applications and website builders using Next.js and SSR. I strive to keep up to date with the latest technologies and best practices in web development.

Experience

Middle Frontend developer

03/2022 to Current

Kapsys

Remote office

- Develop multilingual web applications using Next.js with SSR for web applications and SSG for static websites, and integrate with Strapi CRM.
- Mentor juniors and team members, helping them develop their skills. Conduct code reviews to ensure code quality and best practices.
- Support the support team in resolving technical issues.
- Achieve maximum Google Lighthouse scores for loyalty with WebNSJS-based applications.
- Double content rendering speed compared to previous benchmarks.

Angular Frontend developer

01/2021 to 03/2022

Usense

Kyiv

- Design and implement components, templates, and stylesheets to create engaging and responsive user experiences.
- Collaborate with backend developers, QA engineers, and project managers to ensure that web applications meet client and user needs.
- Develop Angular expertise to build a medical CRM system.

Skills

- Collaborate with cross-functional teams to gather project requirements
- Design and develop robust and scalable front-end solutions using React, Angular, JavaScript, TypeScript, and styles(style.module.css/sass/scss/tailwind)
- Implement responsive designs and ensure optimal performance across various devices and browsers
- Optimise application performance and improve loading times
- Write well-structured and formatted code, which integrates seamlessly into the project
- Debugging errors as they arise, adding user trace flags, and reviewing debug logs
- Improve and maintain system architecture integrity
- Conduct code reviews and provide constructive feedback to junior and middle developers
